How to implement STarT Back in practice

Are you a clinician, allied health professional or commissioner looking to implement best practice for low back pain into your services? Then this free workshop is for you.

This interactive workshop is based on the clinically proven and cost effective STarT Back stratified care approach. The approach puts the patient at the centre of their care, assessing patient level of risk and matching this to the appropriate treatment.

The workshop will provide you with access to the STarT Back e-tool, the STarT Back story and the tools to implement this innovation into your service. There will also be the opportunity to explore the Musculoskeletal Patient Reported Outcome Measure (MSK PROM) tool.

For more information please visit the STarTBack website at www.keele.ac.uk/sbst.

Date: 10 March 2016

Time: 12.30 —4pm, including lunch

Venue: Sixways Stadium, Warriors Way,
Worcester WR3 8ZE

This workshop is free to attend. Places are limited so secure your place quickly by contacting Emily Brayford on e.c.brayford@keele.ac.uk or 01782 733905
